

Max Uland

TECHNICAL PROJECT MANAGER · PROGRAM DIRECTOR · ENGINEERING & OPERATIONS

(669) 241-6266 · max.uland1337@gmail.com · maxuland.com · linkedin.com/in/maxuland

SUMMARY

Program and project delivery, backed by hands-on technical work.

Project/Program Director with 5+ years leading planning, scheduling, and delivery across concurrent projects with budgets exceeding \$1M, paired with hands-on technical experience building and launching web, app, and automation projects. Background spans 20+ years of operations, logistics, and cross-functional leadership — connecting business stakeholders, engineering and technical teams, and vendors to keep delivery on track.

CORE QUALIFICATIONS

What the role calls for, and what the background covers.

- Project planning, scheduling, and cross-team delivery
 - Stakeholder communication and vendor coordination
 - Risk identification, problem-solving, and status tracking
 - Technical project documentation and reporting
 - Hands-on technical background: web/app development, dashboards, scripting
 - Team leadership, training, and SOP development
 - Budget oversight (projects up to \$1M+)
-

CAREER SNAPSHOT

Operations, logistics, programs, and practical technical work.

20+ Years working | 1k+ Person groups supported | \$1M+ Largest project budget delivered | 3 Owner roles

CAREER PROGRESSION

Each stage built the skills for the next one.

01 · Hands-on work

Landscaping, barn work, horse training, and kitchens built discipline and follow-through.

02 · Sales and service

Door-to-door sales and customer-facing work built confidence, patience, and clear communication.

03 · Dispatch and logistics

Delivery flow, routing, coordination, vendors, timing, and customer impact.

04 · Operations leadership

Teams, inventory, warehouse flow, reporting, training, and day-to-day accountability.

05 · Business ownership

Program work, websites, apps, WordPress tools, documentation, and project delivery.

WORK HISTORY

A clear chronological view.

2001–2002 Landscaping

Early work — First paid work

- Learned to show up, work hard, and finish visible work.
- Built an early foundation in responsibility and follow-through.

2002–2004 Horse training / barn hand

Hands-on work — Western riding, cutting, and barn work

- Worked around western horse training, cutting, barn routines, and animal care.
- Learned patience and consistency in work that mattered every day.

2003–2011 Sacramento Bee Sales

Sales — Independent contractor

- Sold subscriptions door to door from Chico to Santa Cruz.
- Learned how to approach people, handle rejection, work a route, and keep moving.

2012–2014 Fanny Ann's Saloon

Food service — Cook

- Worked in a kitchen where timing, prep, cleanup, accuracy, and teamwork mattered every shift.
- Built habits that later carried into delivery, logistics, and operations.

2014–2016 Block Party / Caviar

Logistics — Operations, dispatch, and logistics coordinator

- Worked across dispatch, delivery coordination, routing, timing, and customer impact.
- Built the logistics foundation that supported later management roles.

2016 Zum

Management — Operations Manager

- Managed day-to-day service operations and coordination.
- Expanded experience across dispatch, people, and operating details.

2016–2017 K1 Speed

Management — Manager

- Managed daily operations in a customer-facing venue.
- Worked with staffing, guest flow, safety, timing, and floor-level accountability.

2017 MobyDish

Operations — Operations and Logistics Manager

- Handled large client accounts while running operations and logistics.
- Managed order flow, vendors, delivery details, customer experience, and internal handoffs.

2019 ZeroCater

VIP clients — VIP client operations

- Handled VIP catering accounts starting near \$10,000 in client spend, along with large events serving over a thousand people.
- Worked with high-stakes accounts including Apple, Cisco Meraki, and GitHub.
- Managed client experience, vendor coordination, timing, and event reliability.

2020 Cali Xpress

Operations — Manager of Operations and Logistics

- Managed daily operations, logistics, delivery flow, and team coordination.
- Worked to make operating processes clearer and more reliable.

2020–Present Freelance

Program work — Senior Project Manager / Program Director

- Managed planning, coordination, and delivery across multiple large-scale projects, including budgets above \$1M.
- Connected business needs, stakeholders, teams, vendors, tools, schedules, budgets, and execution details.

2021–Present MD Tech LLC

Ownership — Co-Founder / CEO

- Business-owner role connected to technical and operations work.
- Builds on years of sales, service, logistics, management, and client-facing execution.

2022–2023 SSA Group

Warehouse — Head of Warehouse — food, beverage, and retail

- Led warehouse work for food, beverage, and retail operations.
- Focused on inventory, handoffs, team coordination, warehouse flow, and readiness.

2023–Present Maxxed Technical Systems

Ownership — Owner and CEO

- Builds websites, Android app projects, WordPress tools, documentation, and launch plans.
 - Applies sales, service, logistics, operations, warehouse, and program experience to practical technical work.
-

EDUCATION

Formal education alongside years of hands-on work.

2010–2014 City College of San Francisco

Associate of Science, Computer Science

2005–2009 Grant High School

High School Diploma

STRENGTHS

Where the operations background and the technical work meet.

Operations & Programs

- Delivery flow, routing, vendors, and timing
- Inventory, warehouse flow, and readiness
- Schedules, budgets, and stakeholder coordination
- Training, SOPs, and repeatable handoffs

Technical

- Websites, WordPress tools, and Android projects
- AI-assisted tools and automation
- Dashboards, scripts, and reporting
- Testing, release prep, and support paths

SELECTED PROJECTS

A sample of the practical technical work.

Maxxed Prediction Console

A Kalshi research tool that scans markets, compares strategy results, exports reports, and keeps live actions behind safety controls.

Rival Rush Arcade

A Unity Android party game with multiple mini-games, Android builds, testing preparation, credits, and launch assets.

Live websites

techmaxxed.com, bunchsigning.com, maxxedpix.com, norcalcashforcars.com — four sites, four audiences, each with a clear next step.

Systems and documentation

Inventory and asset tracking, dashboards and scripts, training documents and SOPs, dispatch and routing processes.
